

Research Training Group 2300

„Enrichment of European beech forests with conifers“

Guest Lecture Series 2019

Wednesday, F 01 (Büsgenweg 1)

May 22, 2019
4 pm

Trophic interactions in the leaf-litter arthropod community

Prof. David H. Wise, University of Illinois at Chicago

June 5, 2019
2 pm

TreeWatch.net: Giving a voice to trees in a world of climate change

Prof. Kathy Steppe, Laboratory of Plant Ecology at Ghent University

July 10, 2019
2 pm

Trees and forests in a changing climate - from ecophysiological processes to large-scale patterns of tree mortality

Dr. habil Henrik Hartmann, MPI for Biogeochemistry Jena
