

11th Joint European Thermodynamics Conference

June 27th – July 1st, 2011

Chemnitz, Germany

The aim of the conference is to provide a meeting ground for thermodynamicists from all of Europe and surroundings and to enlighten various aspects of modern thermodynamics. In topical sessions emphasis will be on the connection of thermodynamics to diverse fields of science including sessions about:

- Biothermodynamics
- Radiation Thermodynamics
- Thermodynamics at Small Scales
- Optimizing Thermodynamic Processes

Additionally, there will be invited talks giving a broad overview of selected topics. A poster exhibition will offer space for all kinds of thermodynamics at the conference.

Please note that June 27th – 29th will be for presentations and talks while June 30th and July 1st we will offer excursions for those interested.

Registration deadline: May 1st; Early registration deadline (reduced fee): April 1st

“Up-and-Coming Scientists”

One session at the conference will be reserved for PhD students. They will get the chance to present their work to the audience and get feedback. Applications (extended abstract – maximum 2 pages, CV) should be sent to jetc11@physik.tu-chemnitz.de by April 1st.

For detailed information on the conference and the application for the “Up-and-Coming Scientists” session visit:
